

**REMARKS**

Further and favorable reconsideration is respectfully requested in view of the foregoing amendments and following remarks.

Claims 1, 3, 5-10 and 12-14 are now pending in this application.

Support for new claim 14 can be found in Example 1 on page 12, lines 6-12, of the specification.

Applicant appreciates Examiner Frazier's willingness to schedule a personal interview with Applicant's attorneys to be held on June 26, 2012, together with the Examiner's Supervisor. The amendments and arguments filed April 24, 2012, will be discussed. Examiner Frazier agreed to not issue another Office Action until after the interview.

The Examiner has maintained the rejection of claims 1-10, 12 and 13 under 35 U.S.C. § 103(a) as being unpatentable over Kita et al. (US 6,307,052) in view of Lehmussaari et al. (US 5,795,913). Applicant respectfully traverses the rejection for the reasons provided in the Amendment filed April 24, 2012. It is noted that during a telephonic interview held April 6, 2012, the Examiner stated that the amendments in the Amendment filed April 24, 2012, would overcome the rejection of record. This is confirmed in the Examiner's Interview summary dated April 11, 2012. Thus, pending claims 1, 3, 5-10 and 12-14 are patentable for the reasons of record.

Moreover, new claim 14 is patentable over the references, because the references fail to disclose or suggest an aqueous liquid preparation "consisting of" the specific components recited in the claim.

Accordingly, claims 1, 3, 5-10 and 12-14 are patentable over the cited references.

In view of the amendments and remarks filed April 27, 2012, and the amendments and remarks submitted herewith, it is submitted that the rejection set forth by the Examiner has been overcome, and that the application is in condition for allowance.

Applicant's attorneys look forward to speaking with the Examiners during the interview.

Respectfully submitted,

Masayo HIGASHIYAMA
